PROFESSIONAL SUMMARY

Full stack developer with 5 years of experience in C#, .NET, ASP.NET and SQL Server. Specialized in systems integration, REST APIs, digital signatures and process automation, end to end: back-end, front-end (JavaScript) and integrations between browsers, native applications and hardware. Currently also working on computer vision in Python (YOLO, PyTorch).

PROFESSIONAL EXPERIENCE

Software Developer — Computer Vision (Freelance) — Telesmart S.A.

Buenos Aires, Argentina | Jun 2026 – Present

- Developing Inteliax, a computer vision application for real-time object detection and counting in video.
- Multi-class object detection with YOLO models in Python, with training and inference on GPU.
- Video pipeline: on-screen labeling, timestamped counting, segmentation (SAM) and temporal anti-flicker smoothing.

Full Stack Developer — Xoft Tech S.R.L.

Buenos Aires, Argentina | Oct 2021 – Jun 2026

- Built the web version of Simax, a help desk platform in ASP.NET MVC, Entity Framework and SQL Server adopted by 10+ companies, cutting ticket resolution time by about 30%. [demo]
- Implemented digital signing of PDF purchase orders with ePass tokens in SIACC, the procurement system of IOSFA, the Argentine Armed Forces' health insurance institute.
- Developed a Chrome extension that communicates with a C# executable, solving browser-to-native-app interoperability and reducing the signing flow to a single click.
- Designed and built a REST API for secure file transfer, reducing processing time and manual errors by roughly 40%.

Full Stack Developer (Freelance) — Telesmart S.A.

Buenos Aires, Argentina | Jan – Mar 2023

- Real-time visualization system to monitor fiber-optic telecommunications processes, plus internal process automation that eliminated several hours of manual work per week.

Software & Mobile Developer — Kanusur

Buenos Aires, Argentina | Jun – Dec 2021

- Licensing system to unlock audiovisual content (web + Android app) and the license sales website, protecting the catalog and enabling its monetization.

FREELANCE PROJECTS

Freelance Web Developer — Various clients

Buenos Aires, Argentina | Mar 2026 – Present

- Lil Sanguchito (Oct 2026): portfolio for a video editor styled like a YouTube channel; videos, views and thumbnails load automatically from a Google Sheets spreadsheet. [live]
- Catari (Aug 2026): corporate website for a construction company showcasing its new apartments in Villa Lynch. [live]
- Portfolio for Mateo Ronn Abregu (Mar – Apr 2026): website for a photographer, with content connected to the Google Drive API so the client updates it himself. [live]

TECHNICAL SKILLS

Languages: C#, Python, JavaScript, SQL, HTML, CSS
Frameworks & technologies: .NET, ASP.NET MVC, ASP.NET Core, Entity Framework, LINQ, REST APIs, jQuery, Chrome Extensions, Google APIs, Android, Unity
Computer vision / AI: YOLO, SAM, OpenCV, PyTorch, video processing
Databases: SQL Server, MySQL
DevOps & tools: Docker, Git, GitHub
Practices: Client-server architecture, digital signatures, hardware integration (ePass), process automation

EDUCATION & LANGUAGES

High school diploma — Colegio N.° 8 D.E. 10 "Julio A. Roca", Buenos Aires (2022).
Languages: Spanish (native) · English (fluent).
